

## New Options for the Running Club Challenge

Following last year's successful Running Club Challenge, ING Bay to Breakers is excited to announce the 2010 Running Club Challenge! In collaboration with local running clubs that have made ING Bay to Breakers a world class race, a new entry option is now available for club members. Become a part of history by running the **99<sup>th</sup> ING Bay to Breakers 12k on May 16!**

**Cost for running club members who choose to participate in the Running Club Challenge:**

- **\$39** Early registration – **January 16-March 31**
- **\$43** Standard registration – **April 1-May 14**
- **May 14 – Last day for Running Club registration.**

ING Bay to Breakers will continue to implement start line corral placement. During registration, all athletes are required to indicate an estimated finish time in order to be placed in the appropriate corral to ensure a fast and fair start. Be sure to select the "Running Club Challenge" at the start of registration.

The Running Club Challenge will have two divisions: **speed** and **size**. Speed is the total time of a club's top 5 runners and size is the overall number of people in each club. Note: Centipedes (a group of 13 runners tethered together) are counted in the size category, but not the speed category. When you register for the Running Club Challenge, you will be automatically tracked by "club" based on your unique club code.

Here is your exclusive password for your club and is only valid online for members of your club and cannot be combined with other offers or processed through paper forms:

Enter this code when promoted: **WOW2010B2B**

Register here: <http://www.ingbaytobreakers.com/register>

## IMPORTANT INFO FOR SEEDED ATHLETES

If you are an athlete who **QUALIFIES UNDER THE POSTED STANDARDS** to be seeded or sub-seeded, you will register with your club code online and select a corral based on your estimated finishing time. You will then be required to insert the URL of your qualifying results achieved on or after May 1, 2009. You will not become seeded until verified. The online seeding is for the Running Club Challenge only. Seeded registration ends April 15.

More info: <http://ingbaytobreakers.com/registration/seeded.html>

Please feel free to contact me with any questions. Thank you for supporting ING Bay to Breakers!
